

JASHIM GAFOOR K K

Full Stack Software Developer

Kerala, India | jashi202jg@gmail.com | +91-9946167742 | <http://linkedin.com/in/jashim-gafoor-k-k>

SUMMARY

Full Stack Developer with 7+ years of experience building and scaling web and mobile applications across fintech, healthcare, and education domains. Specialized in Angular, .NET, C#, Django and SQL, with strong ownership of the full development lifecycle from architecture to deployment. Known for delivering reliable, user-focused solutions and collaborating with cross-functional teams for clients across India, the US, and Canada.

EDUCATION

B.Tech in Computer Science and Engineering

Government Engineering College, Thrissur, Kerala, India

2019 | CGPA: 8.2 / 10

TECHNICAL SKILLS

- **Frontend:** Angular, HTML, CSS, JavaScript
- **Backend:** Django, C#, .NET, REST APIs
- **Database:** SQL Server, PostgreSQL
- **Cloud & DevOps:** AWS, Azure, CI/CD, Deployment Automation
- **Tools:** Git, Jira, VS Code, Visual Studio, Postman, ArcGIS
- **Other:** App Store & Play Store releases, Production monitoring, Debugging, Code optimization

PROFESSIONAL EXPERIENCE

Full Stack Developer

RCKR Softwares, Bangalore, India | 2019 – Present

- Led end-to-end development of multiple web and mobile applications, covering architecture, development, deployment, and maintenance.
- Built scalable front-end and backend systems using Angular, Django, and .NET.
- Designed REST APIs and integrated third-party services for reliable data exchange.
- Managed deployments on AWS and Azure, improving system stability and release efficiency.
- Reduced production issues through debugging and performance optimization.
- Mentored junior developers and supported overall team delivery.

KEY PROJECTS

1. Appalachian Community Capital (US)

Lead Developer & Team Manager | Angular 18, Django, SQL, Azure | 2024 – Present

- Led a team of 4 to build a **financial platform connecting CDFIs with small businesses**, enabling access to funding opportunities.
- Built the application **from scratch**, defining architecture and leading end-to-end delivery.
- Developed user dashboards to improve visibility into funding pipelines and decision-making.
- Used **Azure services including Service Bus, Function Apps, Application Insights, Email Communication Services, etc.** for asynchronous workflows, monitoring, and notifications.
- Set up and managed **CI/CD pipelines using Azure DevOps** for consistent and reliable deployments.
- Collaborated closely with stakeholders to align technical solutions with business needs.

2. TruBridge (Get Real Health) – (Alberta, Canada)

Full Stack Developer | Angular, .NET, C#, SQL | 2022 – 2023

- Contributed to a **healthcare coordination platform** used for managing patient data and health insights.
- **Integrated Apple HealthKit** to bring real-time health metrics into the system, enhancing patient monitoring capabilities.
- Worked closely with backend teams to ensure **secure and efficient data synchronization**, improving system reliability.
- Helped enhance user workflows and data visibility for healthcare stakeholders.

3. priFact (Bangalore, India)

Full Stack Developer | Angular, .NET, SQL, AWS | 2019 – 2022

- Built an **education SaaS platform** used by schools to manage students, teachers, and administrative workflows.
- Gathered client requirements and translated them into working features, improving operational efficiency for schools.
- Developed core modules such as user management, reporting, and communication tools with the help of **AWS services like S3, lambda, Cloudwatch etc.**
- Managed deployment and handled client delivery, ensuring smooth onboarding and usage.
- Played a key role in a **small team environment**, handling multiple responsibilities across development and delivery.
